Release Notes for PathPilot® v2.0.3

April 2018

Fixed Issues

All

- In the **Tool Table** window, we fixed an issue where pressing **ENTER** on the keyboard's numeric keypad added a new line instead of saving your edits (PP-2010)

Mill

- The USB interface chip for the PCNC 440® Automatic Tool Changer (ATC) was discontinued, so we added support for its replacement (PP-2081)
